

RING SIZE CHART

This ring size chart should be printed on a full letter sized page (216 / 279 mm).
 Make sure that the page scaling is set to “none” before printing.
 You can check if the proper settings have been followed by measuring with a ruler that the scale below is exactly 2cm long.

Choose one ring that already fits perfectly on the finger you will wear the new ring and position it over the circles below..

You have the right size when the INNER edge of the RING is aligned with the OUTER edge of the CIRCLE.

If your ring seems to fit 2 circles, we recommend choosing the larger size.
